India gears up for Indian Ocean-wide mock tsunami drill Politics

Timesofap · 5 days ago

veooz 360°

Summary | HYDERABAD: India, along with 23 other countries, is participating in a major Indian Ocean-wide mock tsunami drill on September 9 and 10 that is aimed at testing the Indian Ocean Tsunami Warning and Mitigation System (IOTWS). The recipients at the national level include control rooms of NDMA, MHA, Disaster Management Offices of all coastal states/UTs, NDRF, Indian Coast Guard, Indian Navy and critical coastal installations (such as ports and power plants). The recipients have the choice to participate in the mock drill on either or both the days.

Pakistan to take part in tsunami simulation exercise

DAWN · 5 days ago

veooz 360°

Summary | ISLAMABAD: Pakistan is among the 24 countries of the Indian Ocean region which will

participate in a large-scale simulation exercise aimed at testing the Indian Ocean Tsunami Warning and Mitigation System. Both the scenarios will simulate tsunami waves travelling across the Indian Ocean. The test is designed to assess the effectiveness of communication flows between the countries involved, their readiness and the efficiency of emergency procedures.

Summary | New Delhi: India, along with 23 other countries, is participating in a major Indian Ocean-wide mock tsunami drill on September 9 and 10 that is aimed at testing the Indian Ocean Tsunami Warning and Mitigation System (IOTWS). The recipients at the national level include control rooms of NDMA, MHA, Disaster Management Offices of all coastal states/UTs, NDRF, Indian Coast Guard, Indian Navy and critical coastal installations (such as ports and power plants). The recipients have the choice to participate in the mock drill on either or both the days.

Indian Ocean nations to carry out UN-organized tsunami readiness test

Argentinastar · 5 days ago

veooz 360°

Summary | 5 September 2014 - Ten years after the 2004 Indian Ocean tsunami, 24 countries in the region will participate in an exercise organized by the United Nations to test their readiness to address such rare but potentially destructive events. The large-scale simulation exercise " known as "IOWAVE14" " is planned for 9 and 10 September, and is organized under the auspices of the Intergovernmental Oceanographic Commission of the UN Educational, Scientific and Cultural Organization (UNESCO). The exercise is intended to test the Indian Ocean Tsunami Warning and Mitigation System, which was set up in the wake of the catastrophe that struck the area on 26 December 2004.

Aust joins in Indian Ocean tsunami test

Skynews · 5 days ago

veooz 360°

Summary | A decade after the strongest tsunami in living memory, 24 countries spanning from Australia to South Africa will take part in a UN-backed simulation exercise next week to test their capacity to forecast and tackle similar disasters. The test is designed to examine an Indian Ocean tsunami warning system put in place after the December 24, 2004 disaster which killed more than 230,000 people, displaced more than one million people, and left a massive trail of destruction along the coasts of the affected countries. It will check the efficiency of communication flows between the 24 countries, general readiness and the efficiency of emergency procedures.

Mock Drill on Tsunami Warning System

The New Indian Express · 4 days ago

veooz 360°

Summary | HYDERABAD: Indian National Centre for Ocean Information Services is conducting a mock drill on Tsunami warnings on September 9 and 10. The recipients at the national level include control rooms of NDMA, MHA, Disaster Management offices of all coastal states and UTs, NDRF, Indian Coast Guard, Indian Navy and critical installations like ports, power plants etc. India, along with 23 other

countries on the Indian ocean rim, is participating in a major Indian Ocean-wide mock tsunami drill.

Indian Ocean nations to test tsunami warning system

Zee News · 6 days ago

veooz 360°

Summary | Paris: A UN-backed simulation exercise involving 24 countries, including India, will take place next week to test a disaster warning system established after the strongest tsunami in living memory hit the Indian Ocean region in 2004. The simulation exercise, involving 24 countries of the Indian Ocean Rim, will take place on September 9 and 10. It has been organised under the auspices of the Intergovernmental Oceanographic Commission of the UNESCO to test the Indian Ocean Tsunami Warning and Mitigation System (IOTWS).

"Miracle from God": Girl Reunited with Family 10 Years After 2004 Boxing Day Tsunami

Goldenageofgaia · a mth ago

veooz 360°

Summary | Banda Aceh: An Indonesian girl swept away in the 2004 Indian Ocean tsunami that killed over 230,000 people has been reunited with her parents 10 years after she was given up for dead, her mother says. Raudhatul Jannah was four when she and her brother were swept away by tsunami waters from her home in West Aceh district in Aceh province on December 26, 2004, Jamaliah, her mother, said.

Family Who Reunited With Daughter Also Finds Son 10 Years After Tsunami

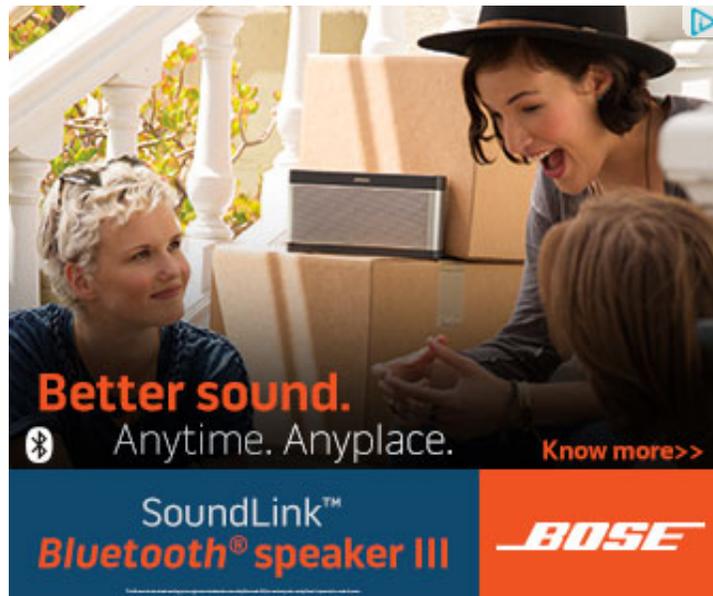

The Huffington Post · 21 days ago

veooz 360°

Summary | A family ripped apart by the 2004 Indian Ocean Tsunami was reunited Monday for the first time in a decade, thanks to a chance encounter in June which led them to their missing daughter, who, in turn, helped the family find their missing son. Indonesian mother Jamaliah (L) holds her daughter, Raudhatul Jannah (R), after they were reunited in Meulaboh, Aceh province. Indonesian mother Jamaliah displays a picture taken before the 2004 tsunami of her two missing children, daughter Raudhatul Jannah (R) and son Arif Pratama Rangkuti (L) in Meulaboh, Aceh province.
